Cotton Rich Cellular Blanket

Our Cotton Rich Cellular blankets made predominantly of cotton (80%) provide beneficial properties such as breathability and softness. Mixed with polyester (20%), benefits include a quicker drying time (reducing energy costs) and durability. Machine washable at 95 degrees centigrade and suitable for tumble drying this is a versatile product.

Composition	Size (cm)
80% Cotton, 20% Polyester	180 x 230
